

Fair Price Policy

We appreciate the importance of clear, defined, fixed price quotations and realise that all our clients have budgets to manage. Working with our customers we often propose cost saving ideas at the early stages of a project to ensure the best return on investment.

Why Hanover work with a fair price policy:

- Cost transparency helps with budgeting
- Reduces the risk of overrun spending
- Eliminates all hidden extras
- Enables customers to plan other projects
- Clear framework for staged payments

Hanover Builders include within the contract a payment schedule and programme of works, which allows customers to plan, budget and make best use of their resources.
